Github: <https://github.com/smarwise>

Blog: smarwise.github.io

SKILLS

Proficient: C, C#, Python, .NET, PHP, SQL, HTML5, CSS3, Git, Linux

Exposure: Javascript, Angular, Flask, NodeJS, Java, C++, JQuery

PROFESSIONAL EXPERIENCE

Dariel, Johannesburg, SA - Graduate Software Developer

Mar 2020 - Nov 2020

- Worked on a hospital application using .NET, XAML, SQL, Azure DevOps and Python
- Added new screens(pages) to the application as the hospital expanded its services and also maintained the legacy code
- Wrote and published articles for the company website and graduate magazine
- Worked on a web application to implement SEMAT during projects using .NET, Angular, and SQL
- Worked on a website for a non-profit organization using .NET, Angular, and SQL

WeThinkCode_, Johannesburg, SA - Intern Software Developer

Jan 2019 - May 2019

- Built a Python program from scratch to check for good code formatting in C files
 - Served as a technical tutor for students with C coding questions
 - Wrote shell scripts to perform basic functions e.g make sure no removable drives were connected to the computers by students during exams, and saved our staff hours every week
 - Helped plan and launch an event helping women in technology
-

EDUCATION

Bachelor of Science in Computer Science, University of the People, CA

Nov 2020 - Present

National Certificate: IT: Systems Development, WeThinkCode_

Feb 2018 - Feb 2020

PROJECTS

Hypertube: Project Link

- Streaming platform for movies we made using PHP, Javascript, JQuery and NodeJs for the server
- I made use of the APIs by Facebook, Google and 42 for OAuth, designed the database, and created the user settings

IRC: Project Link

- IRC server and client I made using C
 - Made use of sockets and FTP
-

CERTIFICATIONS

- CompTIA Security+
